MIAMI-DADE

COUNTY PUBLIC SCHOOLS

A WORLD OF CHOICES

- Miami-Dade County Public Schools is the **fourth largest** school district in the United States.
- It's comprised of **392 schools, 345,000 students** and over 40,000 employees.
- The school district stretches over **2,000 square miles** of diverse and vibrant communities ranging from **rural and suburban to urban cities and municipalities.**
- A truly global community, district students speak **56 different languages** and represent **160 countries**

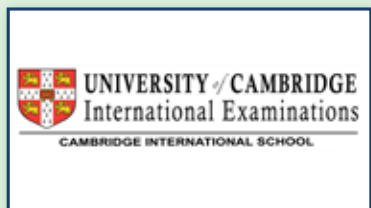

GIVING STUDENTS A WORLD OF CHOICES

International programs offer a challenging curriculum promoting high levels of academic productivity, comprehension of world cultures, and **the acquisition of a foreign language.** Through internationally benchmarked academic study and interdisciplinary courses, students become active, lifelong learners and global citizens prepared to succeed in an ever changing international society and economy.

- The **International Studies (IS) Program:** school administration, teachers, students, and parents work collaboratively with foreign ministries of education in Spain, France, Italy, Brazil, and Germany to ensure that the educational requirements and standards of that country are infused and taught in the curriculum. This method and practice results in the acquisition of a second language.
- The **International Baccalaureate (IB) Programme:** a highly coordinated, rigorous course of study linking Humanities, the Sciences, Mathematics, Languages, and Community Service. The curriculum of IB Programmes incorporates standards that assume a high level of aptitude and achievement.
- The **Cambridge International Examinations (CIE) Program** is an innovative and accelerated method of academic study offered solely through CIE, part of England's renowned University of Cambridge. It provides an engaging, accelerated, academic experience for motivated learners. Students are challenged to work at the highest level of international standards in Math, Science, English, and Language Arts.
- The **AP | Capstone Program** is designed to complement and enhance the in-depth subject-matter study provided through AP courses. The curriculum leads students to exemplary inquiry, research, collaboration, and communication skills by studying topics of global relevance from an interdisciplinary perspective, making connections between these topics and their AP subjects.
