Condominiums

The Condominiums page allows users to search for FHA-approved condominium projects by location, name, or status. These properties are not for sale by the FHA. The search can be configured to find specific types of projects through the use of the pull-down menus and entry fields. Detailed [help](#) is available online or contact the Single Family Administrator. Please note: it is not necessary to enter information into every field. The less information entered, the larger the resulting list. Enter only the criteria (full/partial) that you know to be correct or helpful in streamlining your list to your needs. If you are having problems finding a condominium, you may need to modify your search criteria
