

Bridge API signup for Miami Agents and Brokers

Follow these instructions to execute an agreement with the Miami MLS for data access via the Bridge API Platform

A Step-by-Step guide for Agents and Brokers

1. Log into your Miami Dashboard.

2. Click the Bridge Agreement Management icon.

3. Agree to the Terms & Conditions for the Bridge Agreement Management platform.

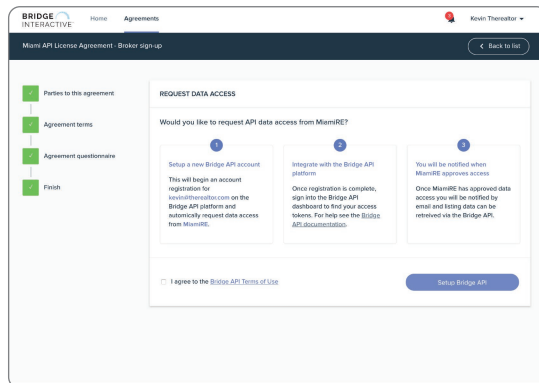

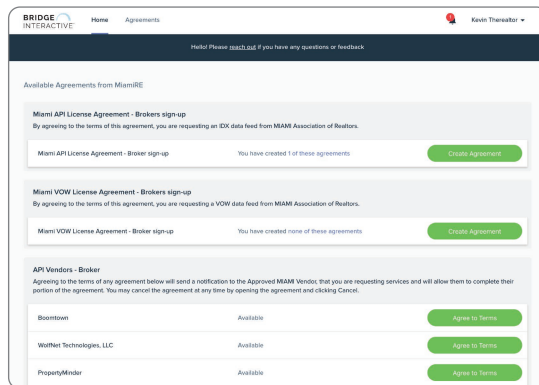

4. From the list of available agreements, select either the Miami IDX or the Miami VOW license agreement.

5. Complete the steps in the agreement wizard. You will need to check the various boxes in the Agreement Terms step, and complete the form in the Questionnaire step.

7. Once the agreement is complete, you will be prompted to create a Bridge API platform account. Check the Terms of Service, and click the “Setup Bridge API” button.

8. An email will now be sent to your address. Follow the prompts for finalize your Bridge API account.

9. Creating a Bridge API account will also automatically request data access from the Miami MLS. It may take a few days for the data request to be approved and data made available via the Bridge API.

Agents: please note that your Broker on record must register your office on the platform before you can log in.

If you log in and see an error message, please have your broker follow step 1 - 3 above. No agreement execution is required.

There was a problem with your sign in!

Your broker must sign in to Bridge Agreement Management before we can create your account.

Please [reach out](#) if you have any questions.
