•**History:** History presents all logged activity completed by the User in iMapp. Each record is clickable, so the User can re-run the search or open property report again by clicking on the record in the list.

•**Account Settings:** The login details option was extended to full-fledged account settings. Main features include:
– checking and changing personal details, including name, email, logo, access to system setting under "settings" tab
– adding new tags for bookmarks via "tags" tab
– adding contact in "contacts" section

- **Notifications**:  Receive alerts for IMAPP events, including new feature announcements, tips, training and new data.

- **Mobile Interface**:  New responsive interface allows users on mobile phone to quickly and easily access IMAPP reports and location area maps from an immersive mobile responsive interface that syncs all usage with IMAPP desktop history/settings.

- The **Help Desk** button is **NOW FRONT AND CENTER**

# FEATURE OVERVIEW

# Access IMAPP Upgrade NOW!

# MiamiRealtors.com/IMAPP-NEW

To toggle to **IMAPP New Release Version** of the platform:

1. Use the bar on the top of the IMAPP page "You now have access to beta version of the new IMAPP. Click here to opt into testing."
2. Select "Use Beta Version".

To toggle back to **IMAPP Classic** in the platform:

1. Use the Settings button in the upper right side of the IMAPP page.
2. Navigate the Account Settings and System Defaults.
3. Click on the "Revert to Using Old System".
4. Click on the "Use Release Version" to use new interface.
